LITTLE CHANGE IN FEVER SITUATION

Number of New Cases Reported to Health Officers.

THE ITALIANS ARE IN DISTRESS

On Account of the Cessation of the Fruit Trade to that Port Many of Them Are Out of Employment. Mississippi Towns Panic Stricken.

New Orleans, August 1.—Little change was apparent in the fever situation here today. A number of new cases were unofficially reported to the board of health. The campaign in the interest of cistern screeing continues and hundreds of gallons of oil are being placed in gutters and water receptacles. The large majority of new cases and deaths continue to be in the old infected area below Canal street, only four of yesterday's 27 new cases being above Canal street.

The health authorities while freely admitting the situation to be still serious, still believe that the disease can be controlled, the opportunities for new infection growing fewer as the area of screened cisterns increases. Advices came from the board of health today that Rapides parish is disinclined to admit into her midst persons from New Orleans, even if they have spent the required time in the detention camps.

Similar reports come from other points. President Souchon of the state board of health will take up this matter today with th pParish authorities and with the represetnatives of the marine hospital corps.

Much distress is beginning to appear among the Italian population growing out of the practical expulsion of the fruit business from Louisiana and relief work is one of the tasks which the Italian societies and citizens' committees will now have to address themselves to. While the six day detention order of the board of health lasts, it is epected that all the lines which have been operating fruit steamers into New Orleans will divert their ships to Mobile, and this will have the effect of throwing a couple of thousand laborers, many of them Italians, out of employment.

The average Italian here has half a dozen in his family and sometimes the children number ten or more and with that many mouths to feed the head of a family cannot long remain in idleness without having to appeal to public charity.

Under the circumstances these Italians who are not in the fever district are asking that they be given employment by the health authorities in the sanitary and other work now going on in order that they may not become public charges.

The health authorities are very much encouraged by the excellent work that is being done at the emergency hospital and they believe that when the results of treatment given there become known families will readily consent to have their patients sent there. V. Randazzo, one of the convalescents from an attack of yellow fever, has related his experience in a public card for the benefit of his countrymen. He says when he discovered he was suffering from the disease he followed a doctor's advice and went immediately to the hospital. In a few days he was discharged as practically well. Half a dozen others have already been discharged from the hospital and sent to the department and yards of the charity hospital to spend a few days in recuperation. It is generally agreed among scientists familiar with yellow fever that on the character of treatment depends largely the death rate and with the treatment provided in the hospial it is thought that there can be a great reduction made in the death rate among the Italians.

While the feeling here is constantly growing more hopeful, there is apparently no abatement of the excitement and panicky feeling in the coutry districts of Louisiana and Mississippi. Local business houses are beginning to feel the effects of the scare. They are receiving letters from their traveling men telling of the cancellation of orders in Mississippi and elsewhere because of the reluctance of country people to patronize stores which receive goods from infected districts. In this connection there is some criticism of Governor Vardaman because of a telegram sent by him in which he commended the prudence of Mississippi merchants in refusing to take freight frmo this city.

Quarantine Officer at Anniston.

Aniston, Ala., August 1.—Headquarters for J. H. Achor, state quarantine officer, have been established at Anniston to work Southern, Seaboard and Louisville and Nashville trains between this city and Atlanta, and between Wellington and Atlanta.

The quarantine is against persons who have bee in New Orleans or points along the gulf coast in Louisiana or Mississippi. Every person coming into the state are ordered to sign a list of questions the same as inquiry made on the western side of the state. Officer Achor has enough men here to have one on every train coming in the state and is keeping up a strict quarantine. The municipal authorities here declined to establish quarantine on account of the attitude of the city.

No Yellow Jack on Ship.

New York, August 1.—The steamer Proteus, direct from New Orleans, was declared at quarantine today to be absolutely free from any symptoms of yellow fever. Few vessels, even from southern ports, where there is practically no fever, have such a fine record at the Proteus with 91 passengers and a crew of 72 men made under searching thermometer tests today. This excellent condition is largely due to the care taken by the officers of the boat at New Orleans, where no members of the crew were allowed on shore, four cabin passengers were rejected.

The Louisiana board of health conducted this examination.

Mississippi Towns Panick Stricken.

Mabile, Ala., August 1.—The cities of Laurel and Hattiesburg, Miss., are now suffering with a well defined case of panic as evidenced by the latest instructions from officials of those towns to the Mobile, Jackson and Kansas City. The road is notified that its trains must go through Laurel at the rate of 30 miles an hour, while Hattiesburg advises that no tickets must be sold to that point. The Gulf and Ship Island road has received similar advices.

One Death at Panama.

Washington, August 1.—The Panama canal commission today received a cablegram from Governor Magoon reporting the death from yellow fever of Stelle Cortelyou, a typewriter from Muscotah, Kans., who was employed in the auditing office at Panama. There was no additional cases and D. C. Lively, an American non-employe at Panama, has recovered.

Officers Kill Man and Woman.

Muskogee, I. T., Aug. 1.—Two deputy United States marshals, J. H. Noble and E. S. Edwards, killed J. E. Coleman and his wife and arrested their son, aged 15 years, after a fight on Deep Fork river, 25 miles west of Checttah. The Colemans had stolen horses, mules and cattle in the Choctaw nation. They passed through Checotah and sold some of the stock. The officers were put on their trail and overtook them on the Deep Fork. The thieves were surprised, but fought hard. The woman, as well as the men, began to shoot when the officers approached. Coleman and his wife were shot dead. The son was not injured. The officers who did the killing went to Eufaula, where they made a report to the United States commissioner.

Cholera In British India.

Madras, British India, August 1.—A serious epidemic of cholera prevails among the refugees from the famine stricken districts who have been crowding into the city for weeks past. Numbers of vicitims have been found dead or dying on the streets. The death rate is 89.7 per thousand.

CONFERENCES HELD AT SAGAMORE HILL

Peace Meeting and Cotton Report Scandal Discussed.

SEC. WILSON WILL NOT RESIGN

President Roosevelt Is Very Busy Receiving Peace Envoys of Japan and Russia and Probing the Charges of Fraud in Agricultural Department.

Oyster Bay, L. I., August 1.—Conferences took place today at Sagamore Hill regarding the pending Russo-Japanese peace negotiations and the scandals recently developed in the department of agriculture at Washington.

President Roosevelt entertained at luncheon Baron Rosen who succeeded Count Cassini as Russian ambassador to the United States and who is associated with M. Witte as envoy of the emperor of Russia to the peace conference. His visit to the president today was for the purpose principally for making arrangements for the formal call on the president of M. Witte who will arrive in a day or two from Europe. It is understood M. Witte's visit to the president will take place on Thursday, two days in advance of the formal reception of the Russian and Japanese envoys and their suite by the president on the yacht Mayflower. M. Witte will be accompanied to Oyster Bay on that occasion by Ambassador Rosen. Secretary Wilson, of the department of agriculture was at luncheon as a guest of the president, having come to Oyster Bay by invitation of the president to discuss the recent developments of the cotton report leak scandal and of the exploitation of nitro-culture which induced the resignation of Dr. George T. Moore. Both of these cases are under investigation by the department of justice. By direction of the president the inquiries will be made very thorough, and if the facts disclosed should warrant it, prosecutions against the offenders will be instituted by Attorney General Moody.

Meantime a rigid inquiry will be made into all other bureaus of the department of agriculture it being the intention of both the president and Secretary Wilson to purge the report of any taint of corruption. With this general inquiry the president is not interfering in any way. Secretary Wilson is directing it and the president's confidence in him is such that he is assured the investigation will develop all the facts. Secretary Wilson has no present idea of resigning and even if his resignation were tendered, it is probable that the president would decline to accept it.

Another visitor to the president was John W. Riddle, of the District of Columbia, who, on March 8, last was appointed United States minister to Roumania and Servia.

Shot Man Through Heart.

Mobile, Ala., August 1.—News has reached here of a cold-bloded murder at Yellow Pine, Ala., last night, a number town on the Mobile and Ohio railroad, 60 miles north of Mobile. Hammond Taylor was standing near the hotel when James Walton approached and without warning pulled a pistol and shot Taylor through the heart. No attempt was made to stop Walton, and he passed out of the town with the weapon in his hands. No reason can be assigned for the tragedy. Both men are well known in the community.

Depew Attends Committee Meeting.

New York, August 1.—United States Senator Chauncey M. Depew attended today's meeting of the executive committee of the Equitable Life Assurance society. The committee was in session almost an hour, when at its conclusion Senator Depew said that he had not resigned as a director and had no intention of doing so. Chairman Morton stated that nothing had occurred at the meeting to change Senator Depew's relations with the Equitable society.

GENERAL APPROPRIATION BILL.

Georgia Legislatorss Are Busily Engaged on Important Measures.

Atlanta, August 1.—When the house of representatives opene d Monday the members found themselves in the meshes of the general appropriations bill, upon which a debate of several days will be had, unless the present house proves itself a quicker working body than those which have preceded.

The appropriations bill has been fixed as the continuing special order, which means that it will not be laid aside until it is disposed of, and it is the determination of Chairman Davis, of the appropriations committee, to see that the bill is sent over to the senate by the end of he present week, at least.

In the bill there are a number of items which will bring on a lot of talk on the floor of the house. Last year there was a two days' discussion over the proposition to increase the appropriation for common schools to $1,000,000. Prior to that time it had been $800,000 from direct taxations, while the schools received as much more from other sources. So far no disposition has been manifested to disturb the school fund one way or another, though there are some members who think it ought to be put back at the old figure. It is anticipated, however, that the million dollar apropriation will be given again this year without very much of a fight.

Bell's Child Labor Bill.

The child labor bill, by Mr. Bell, of Fulton, prohibiting the employment in factories or mills of any children at all under the age of 12 years, and making restrictions as to others, is set as the special order for Wednesday, Aug. 2. Whether it can be taken up or not depends the progress made on the general appropriations bill. If it is possible to get the appropriations bill practically out of the way, Wednesday's session will be given to the discussion on each side of the child labor bill, and this time will be divided out among a number of the best known orators on the floor. There is no doubt about the fact that the debate will prove an interesting one, as there is a great deal of feeling on both sides of this question.

In the Senate.

The senate had cleared up everything on its calendar when it adjourned on Friday, and will have little to command its attention today beyond the fifty-odd house bills which have been passed and sent over for action by the higher house. These are all local measures.

The only general measure of any consequence which the house has passed and sent to the senate, is that providing for the establishment of a state reformatory for youthful criminals. This bill will be read the first time in the senate on Monday and and was referred to a committee. At the very earliest it cannot be taken up for action by the senate before Wednesday, as it will have to be read on three separate days, but there is nothing to prevent the senate from disposing of it during the present week.

Stockholders Ride Free.

Chicago, August 1.—The Illinois Central railroad company today issued a notice to stockholders that the regular annual meeting of the company will be held in Chicago, Oct. 18, and that to permit personal attendance of each adult holders of one or more shares of stock a ticket will be issued enabling him or her to travel free over the company's lines to Chicago and return. The tickets are good to Chicago during the four days immediately preceding and the day of the meeting and for the return journey, the tickets are good the four days immediately following.

Five Persons Injured in Wreck.

Joliet, Ill., August 1.—Five persons were injured in an accident to an east bound train on the Rock Islad railroad today about a mile west of Joliet. It is thought none of the injured will die. The train was a second section due in Chicago at 7:25 a. m. The accident occurred at a switch which had just been opened for a work train at a gravel pit. The passenger train ran on the side track, striking the work train. A section of a Pullman sleeper was torn out.

Mrs. Elizabeth Sanford's attorneys have made public the petition for divorce from her husband, Vincent A. Sanford, who wil be tried next Tuesday for killing George Wright, the Southern railroad ticket agent with whom Mr. Sanford claims that Mrs. Sanford was unduly intimate.

Mrs. Sanford claims that the petition for divorce would have been filed earlier but for the reason that she did not get her papers prepared in time for the July term of court. The petition teems with sensational charges against Sanford. Mrs. Sanford alleges repeated acts of adultery on her husband's part, charges that his conduct has been such as to reduce the family to want, and also alleges that on one occasion her husband struck her.

JUSTICE COLMAN'S COURT.

Richard Little Placed Under Heavy Bond to Keep the Peace.

Richard Little was arraigned in Justice Colman's court Tuesday upon the charge of attempted assault with a deadly weapon upon the person of Charlie Polite. Polite, who caused the warrant to be issued, declared before the court that Little "came after him" with a gun a few days recently and on divers occasions had threatened to feed the buzzards on his carcas. After weighing the evidence, Justice Colman placed Little under a peace bond of $500.

Charlie Polite is now under bond for his appearance at the fall term of the circuit court, charged with assaulting Richard Little and his brother and beating them over the head with a railroad coupling pin, on the Gainesville and Gulf Railroad, a few months ago. Polite was arraigned in justice court and required to give bond for his appearance to the higher tribunal.

ANOTHER PROPERTY TRANSFER.

R. A. Becker Purchases Land, and Will Cut Up into Lots for Market.

Notwithstanding that R. A. Becker expects soon to return to New York and accept a position as master of a ship, he retains confidence in Gainesville and its future, as is best demonstrated by the fact that on Monday he purchased through J. W. Patton, as agent, a tract of two and one-half acres of land near the University grounds.

It is the purpose of Mr. Becker to divide this tract into nine lots, which will be placed upon the market. They are most desirably located, and will no doubt sell readily at the proper time.

While Mr. Becker will be absent from the city a great deal of the time, friends will be glad to learn that the family will remain here.

Cured Hay Fever and Summer Cold.

A. J. Nushbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

ELDER RAWLINGS IS GUILTY.

Declares Judy in Famous Murder Trial Now Ended.

Valdosta, Ga., August 1—The jury in the trial of J. G. Rawlings brought in a verdict of guilty without recommendation. The prisoner, his wife and daughters, who had remained by his side, received the verdict without emotion.

The conviction of J. G. Rawlings, the father of Jesse, Milton and Leonard Rawlings, whose convictions had preceded his, removes the entire male membership of the family, should the verdicts of the juries stand.

The three sons and the negro, Alf Moore, were accused of killing the young Carter children, and the father, J. G. Rawlings, was accused and found guilty of instigating one of the blackest crimes that has been recorded in the history of Georgia.

Four of the convicted men received no recommendation to mercy, and under the laws of the state, their sentences necessarily must be death on the gallows.

One of the Sons, Leonard, will receive a life sentence in the penitentiary—provided, of course, that sentences are passed upon the men.

Seldom have so many faced the extreme penalty for the same crime, and interest in the case throughout Georgia and the country has been deep.

LIGHTNING PLAYED HAVOC MONDAY

Two Houses Were Struck in East Gainesville---One Damaged.

MRS. S. L. CARTER STUNNED

The Lady Was Unconscious for Some Time, But Assistance Was Soon on Hand and She Recovered---Home of Judge Arnow Suffered a Big Loss.

During the heavy thunderstorm in this section Monday afternoon, which was one of the most severe known here in several years, the lightning played havoc, especially in East Gainesville, and it is a miracle that that there were no serious calamities to report.

Mrs. Syd L. Carter knows how it feels to be stunned by lightning. While seated in a room, 1000 East Arlington street, the lightning struck the residence. The lady was seated at a table writing in the room struck, and was rendered unconscious. Miss Florence Anderson, who was also in the house, but in another room, suspected that Mrs. Carter was injured and rushed to her assistance. She found the lady lying upon the floor in an unconscious condition. Other assistance was summoned, and after a time Mrs. Carter regained consciousness. Friends of the lady will be glad to learn that she has experienced no inconvenience from her experience, but it was a close call indeed.

Arnow's Home Damaged.

Lightning struck the home of Postmaster George J. Arnow, 709 S. Carter street, completely wrecking a portion of the house, and causing damage to the amount of about $300. The lightning entered the cupola and found its way into every room, save one. A pantry in the dining-room was completely demolished, and the bed in Postmaster Arnow's room was struck and partly wrecked. Fortunately there was no one at home at the time, or the result might have been more serious.

AN ENJOYABLE EVENING.

Center Lodge No. 11, I. O. O. F., Had a Sumptuous Spread.

Center Lodge No. 11, Independent Order of Odd Fellows, has always enjoyed a reputation as being up-to-date in whatever its members undertook, and the spread and smoker at the conclusion of the regular lodge session Monday evening was no exception.

The attendance was large, and those present had the privilege of seeing work in the Second degree conferred in an interesting manner by a good team.

At the conclusion of the lodge session the brothers joined in a fine spread in the banquet room. This spread consisted of ice cream, cake, coffee, sandwiches, etc., and it is needless to add that it was enjoyed. M. B. Saunders was the principal caterer upon this occasion, and as usual did himself proud. He was ably assisted in this work by A. M. Cushman and Robert McClellan.

The feast was followed by a smoker, and altogether the evening was most pleasantly passed away.

CARD FROM MR. ROGERS.

Tells of the Condition of His Little Son, Malbra, at Tallahassee.

Editor Sun: I haven't time to write to every one who may inquire as to the result of the sad accident which happened to my little boy at this place on the 28th ult.

I will say the statement in your paper of Sunday was correct. The extent of his injuries are scarcely known to be yet. Both front and back wheels of a very heavy wagon loaded with people ran over his little body, passing diagonally across him from the lower part of the left side to the shoulder of the right, crushing the right shoulder bones and displacing some others. The extent of his internal injuries we cannot tell. His temperature is running about 103 and he is very restless at this writing. We are hopeful of him.

S. B. ROGERS.

Gathering Evidence Against Hoch.

Chicago, August 1.—With the possibility of Johann Hoch, the reprieved murderer, securing a retrial and an acquittal on the charge of murdering Mrs. Marie Woelcker Hoch, the authorities of Cincinnati and St. Louis have been in communication with the state's attorney's office relative to the crimes of bigamy and the murder that Hoch is said to have committed in those cities. Even in event of the condemned man escaping sentence already passed upon him, it is said that enough prosecutions here and elsewhere confront him to consume several years' term.

One Man Killed in Wreck.

Chicago, August 1.A broken axle of a wheel of the smoking car caused the wrecking of the California special on the Atchison, Topeka and Santa Fe railroad at Lemont, last night, when one man was killed outright, four persons fatally injured and a score of other passengers received severe injuries. The identity of the man killed is still in doubt, but he is supposed to be John Grugeire, an Italian laborer of Sunny Side.

Prominent Farmer Killed.

Macon, Ga., August 1.—A party of friends that had gone out to search for James Jenkins, a prominent farmer, living near the Old Macon and Atlantic junction, on Swift creek, 6 miles from Macon, came upon his body late this evening lying in the road where he had been shot dead from ambush while passing near a clump of bushes.

The Larkspur.

Great vigilance has to be exercised by the antiquarian painter. This was demonstrated by Sir Laurence Alma-Tadema's picture "The Finding of Moses." Looking at the picture, a well known botanist examined with admiration the painting of the lifelike larkspurs which form the foreground, and then, turning toward the artist and congratulating him on the successful rendering, pointed out that larkspurs were of a comparatively recent growth. The painter laughed as he replied, "So I thought, until dried specimens of them were discovered in some of the recently explored royal tombs of Egypt."

Fishy.

Mother (reproachfully, to her small son)—Jamie, where have you been all afternoon?

Jamie (uneasily)—At Sunday school, mamma.

Mother—Then how is it you are wet and smell so of fish?

Jamie (in desperation)—Well, you see, I've been studying about Jonah and the whale, and—well—I guess it came off on my clothes.—Harper's Weekly.

Chinese Mohammedans.

A traveler in the upper Tangtse provinces of China found in the town of Hinganfu many Chinese Mohammedans who keep up communication with their fellow religionists of Arabia. A missionary who has lived among them for years declares that they are very quarrelsome, much given to boasting of their Turkestan origin, and, in spite of the prophet's injunctions, drink a great deal of wine. This is usually the case with Chinese Mohammedans. In Hinganfu, and more especially in Kansuh, a few of their spiritual teachers keep up their knowledge of Arabic and are occasionally visited by Arab or central Asian mollahs, who follow the old Arab trade route by way of Hami, by which the Arabs originally traded and propagated their faith. These mollahs visit every country in the east where the followers of the prophet are to be found and keep up the ties of the faithful with Islam. As they often stir up dissatisfaction and foment disturbances against the Chinese authorities, the latter regard them with suspicion.

How Swallows Drink.

Of course we know that swallows drink as they skim over the surface of water. We have seen how here and there the water ripples on a pond when swallows are gracefully skimming to and fro. One day I sat down beside a small pond where every evening many barn swallows came to bathe and drink on the surface of the glassy water. With sketch book and pencil in hand I closely watched the birds, and you may imagine my delight to see just how they managed to touch and dip up the water as they came within a few steps of me. You see, the swallow takes up water in its lower bill just as you would dip up a little water in a spoon or in the hollow of your hand while you glided over the surface in a boat. Only the under half of the open bill touches the water. If the upper half were also to touch, the water would be forced out on either side instead of being scooped up into the bill. —St. Nicholas.

A Lake That Stores Heat.

There is a lake that stores the sun's heat at Medeve, in northeastern Transylvania. Thick beds of rock salt underlie the district, and a similar formation appears upon the surface in mounds, some of them over 100 feet in height. Among these the lake rests at fully 1,500 feet above sea level. Upon the surface its water is almost sweet, four inches below there is a twentieth of salt, at two feet there is one-fifth, and at five feet the water is practically saturated with salt. In September, after a summer's sunshine, the thermometer showed the lake's waters to be 150 degrees four feet down. Even by April, after a whole season of wintry weather, it had only been reduced to 80 degrees. Experiments have proved that this is due to absorption and retention of the sun's heat by the salt saturated solution.

The Most Accurate Frontier.

As an instance of the jealousy existing in the relations between Norway and Sweden it may be noted that the boundary line between the two countries is the most minutely exact in Europe. In every parish touched by the line there is deposited an elaborate plan which is renewed every ten years, the whole of the work of surveying, etc., being carefully repeated each time.—Pearson's Magazine.

Qualities and the Sexes.

J. T. Stokes is busy taking the census.

M. Z. Turner, a merchant of Ward City, was here on business Tuesday.

There will be an election held here on August 15th to determine if this shall be a sub-school district. There is no doubt but the majority will be in favor of the school interests, as the people want the best possible in the way of progressive schools. As a sub-district means better schools we hope there will not be a vote against the measure.

JAPS READ WITTE'S STATEMENT.

But They Offer No Comments—Do Not Understand Russia's Envoy.

New York, August 1.—The reported interview with M. Witte, the Russian peace plenipotentiary on board the Kaiser Wilhelm der Grosse, published here today was read at the headquarters of the Japanese peace commission but no comment or statement was made. Minister Sato, of the committee who has met all inquires for statements during the visit of the commission, said he did not care to discuss the matter. He said, however, that he thought Mr. Witte was vested with power equal to that of Baron Komura in the matter of negotiating a treaty of peace.

Mr. Sato did not understand what was meant by M. Witte, when he said that it would have been much better had the common basis been agreed upon by Japan and Russia before approaching peace plenipotentiaries. He said that no peace proposal presented by Russia but had she asked such a thing Japan would probably have entertained the question.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

Forts Razed by Warships.

At least we will be clean, from the effects of the yellow fever scare.

Snow in Michigan July 24th, and two weeks previous people were dying of sunstroke.

Only one law has been declared unconstitutional of the acts of the last Legislature.

The farmers of the State have gathered a very good quality of fodder for their stock this season.

It may come to such a pass that the inmates of the Chattahoochee asylum will have to look after the attendants.

The best way is to keep on scrubbing and take no chances with the "streak of yellow" that hovers about New Orleans.

Don't, for mercy's sake, let it get out that Williams was pardoned because he is off his mental balance, or Chattahoochee will double in population.

You never hear of yellow fever breaking out in a Dutch settlement, as the Hollanders are a class of people that are noted for their cleanliness.

England will support Japan, no matter what price she sets upon peace negotiations. Russia will resist giving up territory as long as possible, unless she may be influenced by Germany.

There is an old saying that "many a true word is spoken in jest," or words to that effect. But if such be the case, there will be plenty of candidates for United States Senator, Congress, Governor, etc.

Many of the streets of the city are receiving attention from the committee and there is need of work in many more of our thoroughfares which could be made as fine as any in the State with but little outlay.

The mosquito is said to carry disease. It also carries enough music to awaken some people from slumber. If you hear a man cussing all alone in the dead of the night you can make up your mind that Amos Quito is after his blood.

And now they say that Bob McNamee has decided to move to Gainesville and run for the Legislature. Mac seems determined to go down in history as having represented every county in Florida in the Legislature.—The Sun, West Palm Beach.

The people of Gainesville should not stop the cleaning-up-process because the back yard was thoroughly renovated early in the spring. Every week at least, there should be a brushing up. The health of the city is worth of note at the present time. It should be kept that way.

The standard of the schools of Florida should be kept up and the teachers of the best. The schools should be so as to attract the attention of winter visitors and many who come here for the winter will place their children in school while they remain here, so that they also keep up with their studies

LUMBER GRADES.

A subject of increasing importance to every lumber producer and consumer is that of grades. That these grades should be uniform where practical is well recognized and many efforts to arrive at some general rules have been made. In view of these movements to standardize grades, the Forest Service has undertaken to bring together the specifications of the various lumber and manufacturers associations and to put them in such a form that they may be compared.

The object of the study is not to devise a system of standard grades, but to make simply such a compilation of the grades now in use as will be of service to lumber producers and consumers, though it is hoped that a great deal of information may be accumulated that will be of value in eventually preparing the way for a standard system.

It is planned to get the views of those concerned partly by interviews and largely by correspondence. A representative of the Forest Service will endeavor to visit the secretaries and members of grading bureaus of various associations and learn their views in regard to the practical workings of the various rules. A large number of mill men and manufacturers will be reached by correspondence and their views sought. It is especially desired to find the important points of difference in grades from the view points of both producer and consumer of lumber, and also to ascertain the chief difficulties in the way of devising and executing a system of standard grades

The assistance of manufacturers and consumers of lumber is earnestly desired in this work. Suggestions concerning it will be gladly received by the Office of Forest Products, Forest Service, Washington, D. C.

A FRIEND OF THE SEMINARY.

The following is from The Tavares Herald, edited by Alfred St. Clair-Abrams:

"An individual wants to know when The Herald and its editor ever took any part in the educational affairs of the State? Just ask any of the teachers or officials of the East Florida Seminary, or any of the schools of Florida what was the attitude of the editor of The Herald in the Legislature two years ago, when as a member of the Committee on Education of that body, he was at all times on the alert to advance the educational interests of the State. It is one of the proudest recollections of his term in the Florida Legislature, that his fight in the interest of education throughout the State earned for him the lasting gratitude and friendship of the educators and friends of education all over the State."

Those familiar with the attitude of Mr. St. Clair-Abrams during his legislative career, know that he was heartily in accord with every sound educational measure, and he always proved himself a true friend of the East Florida Seminary as well.

SHE ALWAYS DID.

The city of Gainesville is doing everything in its power to aid the State in school matters.—Bradentown Journal.

The Journal is quite right, and it is a fact that Gainesville always did her best when it came to school matters. And the reputation of the past will be vigorously maintained.

A newspaper man who was sleeping in church during the service was suddenly startled by the following words in a loud voice from the pulpit: "Why stand ye here all the day idle?" He half awakened and unconsciously answered, "Because they don't advertise."

DeSoto county's orange crop will be all right. The Florida orange is the best and we hope to see it at its best soon.

If half the printed matter sent out by the Government at Washington through the mails were burned up before being mailed, it would at least save the railway mail service the trouble of carrying it over the country and also save the people of the various towns and cities the trouble of making so many bonfires to consume it. There is enough paper wasted and money paid out for distribution to make up the deficit in the postal service. Much of this stuff has become so familiar to the newspaper offices that it goes into the waste basket wrapper and all, without being opened.

The Jim Crow law, which was declared unconstitutional, was framed by an eminent lawyer of Pensacola, and the amendments were submitted by one of the ablest constitutional lawyers of the State. This is the only act of the last legislative session that has been knocked out, and the farmers in that body had no hand in framing the measure. The assertions that the "rubes" and "hayseeds" are to blame for such laws are in bad taste, and in many instances are simply published as fillers in the absence of the letter from Washington.

A small negro of Tampa was caught in the act of stealing a pair of pants from a clothing store on Saturday night. He was allowed to go without being prosecuted, as the proprietor of the store thought he could not make a "suit" out of a pair of pants.

Men who are grafted into politics will continue to graft as long as they can get a chance.

"I can," sighed Henpeck.—Houston Post.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

SERMON REPORTERS.

In English Churches They Are Only Admitted on Sufferance.

Some one who evidently speaks from knowledge writes in the Homiletic Review of "The Experiences of a Sermon Reporter." His remarks on the different rules in English and American newspapers on sermon reporting and his statement that it is necessary to verify Scriptural texts are not without interest. Possibly there is a text for a sermon not preached by the preachers in the following paragraph:

Reporters are invariably welcomed to American churches, for American preachers seem fully alive to the value of the advertisement obtained through newspaper notices. Some preachers even maintain their own "press agent" in order to secure the utmost publicity for the occasionally brilliant and, it may be, eccentric statements which they deliver. In English churches the reporter is only admitted on sufferance. Under an ancient law, which has never been repealed, the taking of shorthand notes of sermons is a misdemeanor characterized as "brawling" and punishable by imprisonment. In a few American churches special desks are available for reporters. They are, in any case, treated with the utmost courtesy by the ushers and provided with seats immediately below the pulpit. On a rare occasion in a crowded church a reporter has been allowed to sent himself on the pulpit steps, and on one extraordinary occasion it is recorded that a stenographer was concealed within the pulpit itself.

RABBITS AS FOOD.

Be Sure They Are Young and Then Cook Them With Onions.

Conies, the parent rabbits, were long considered as indigestible, provocative of melancholy—a black meat, breeding nightmares—but young rabbits have long been approved by thoughtful eaters. They were once eaten very young, and Topsell protested quaintly against the practice of cutting them out of the mother: "I trust there is no man among Christians so inhumanely giuttenous as once to devise or approve the sweetness of so foul a dish." Tame conies are not so good as the wild ones, for every creature doth partake in taste of the air wherein he liveth, and the air of the rabbit warren is not favorable.

The hare was praised extravagantly by Horace and Martial, and Apicius gave many recipes for dressing it, but the rabbit was not much esteemed among the Greeks and Romans. Today there are many ways of cooking the latter—brown or white fricassee, young rabbit in curl papers, croquettes, fillets, gelatin, gratin, rabbit pie, pudding, soup, scallops, mince of rabbit au fumet, rabbits a la venitienne, white gibelots, turban of fillets, kickshaws with Italian sauce, and, best of all—how the savor arises as we write!—rabbits and onions. But the rabbits must be young—those whom the gods love eat them young.—Boston Herald.

A DOG IS ALWAYS HONEST.

He Can't Growl and Wag His Tail at the Same Time.

"There is one peculiar thing about dogs," remarked a well known local fancier and huntsman, and that is you never saw one pant and wag his tail at the same time. A dog is not capable of a double emotion. He can't growl and wag his tail at the same time, for it is impossible for him to be mad at one end and glad at the other.

"If a dog is glad to see his master he will bark and wag his tail. If he wants to get into the house he will pow at the door, whine and wag his tail, but they are all symptoms of one and the same emotion. But if his master opens the door he will cease to show anxiety immediately by whining and will show pleasure only by the wagging of his tail.

"In order to get a man's temper one must watch his eyes, but for a dog's you have to watch his tail. The dog is likewise incapable of deceit, and hence he is nothing of a politician. He deceives no one, not even his master. If he is overjoyed every emotion is indicative of that fact, and his whole makeup gives ample testimony to it. If he is displeased or angered it is the same way."—Houston Post.

A Double Presentation.

John Kendrick Bangs once ran across a gift copy of one of his books in a secondhand bookshop, still having this inscription on the fly leaf: "To his friend, J. G., with the regards and the esteem of J. K. Bangs, July, 1889." Mr. Bangs bought the copy and sent it to his friend again with a second inscription beneath. "This book, bought in a secondhand bookshop, is re-presented to J. G. with renewed and reiterated regards and esteem by J. K. Bangs, December, 1890."

The Same Thing.

"What makes you think you have great business ability?" laughed the successful business man. "Why, you've never made a dollar!"

"But you forget, dear," replied his energetic wife, "that I made you!"—Detroit Free Press.

GENERAL NEWS.

BIG RUSH FOR PUBLIC LAND.

The Opening of the Uintah Reservation Take Place Soon.

Grand Junction, Colo., August 1.—Eight private detectives have arrived in Grand Junctinn to assist the local authorities to keep order during the expected rush of land-seekers to register for the opening of the Uintah reservation. Mayor Bunting has appointed many special police officers and it was intended to give lawbreakers and criminals, who come here during the period of registration the closest attention. Gambling has been prohibited.

Eight registration officials from the general land office at Washington are here, a like number at Provo, and three each at Price and Vernal. About 1,000 applicants a day can be registered here.

Many coffee and lunch houses are being put up for the benefit of the "boomers." Estimates upon the number that will come fluctuate between 4,000 and 5,000 but the steady inflow of earl yarrivals warrants the expectation of a big rush.

Everything will be ready for the opening registration tomorrow. There are about 6,000 homesteads to be distributed, containing all kinds of land. All registrations must be made in person. If the necessary requirements, such as being eligible to a homestead, etc., are fulfilled, all persons registered will be given numbers. These numbers will then be thrown together and will be drawn at Provo, Utah, beginning Aug. 17.

PANIC IS NARROWLY AVERTED.

Two Thousand Excursions On River Barges Have Narrow Escape.

New York, August 1.—Two barges carrying an excursion party numbering about 2,000, towed by a tug, came perilously near being dashed on the rocks at North Yonkers last night at the height of a severe rain and wind storm. Another tug boat rushed to the rescue.

The excursion party hailed from Hoboken, N. J. After a day at Review grove, opposite Yonkers, the crowd boarded the barges for the return down the Hudson. A severe storm raged at the time and only a short distance from the grove the engine on the tug stopped suddenly. Every effort to start it was futile.

Meanwhile the two barges and the tug drifted northeast toward the Yonkers shore, where it was seen that the tug had lost control. The captain whistled for help and a large number of small river craft responded.

A launch was quickly dispacthed to Yonkers and summonded another tug. When the latter reached the excursion party women and children were badly frightened, but owing to the efforts of the crews of the barges and of the band, order was preserved.

The tug made fast to the barges and towed them out into the river when they were within 100 yards of the rocks.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for stomach, liver and kidneys. Mary Walters of 546 St. Clair Ave., Cohoes, N. Y., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked, I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at drug stores; price 50c.

Mayor Johson Against Gamblers.

Cleveland, O., August 1.—Following a letter from Mayor Tom L. Johnson to Chief of Police Koehler to stop all pool selling and gambling at the Glenville race track, where the grand circuit meeting opens this afternoon, it is announced that the race track will be abolished after the present meet, graded down and divided into city lots.

Given Up to Die.

R. Spiegel, 1204 N. Virginia St., Evansville Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me relief and the four bottles cured me entirely. Sold by all druggists.

ITALY TO OWN RAILROADS.

Bill Passed by Chamber of Deputies to Raise Funds.

New York, August 1.—After a four days' special session for the discussion of the government railway bill providing the funds for taking over the railways at a valuation with compensation for expenditure, the ministry of Signor Fortis received a vote of confidence Sunday in the chamber of deputies by a majority of 132, cables the Herald's Rome correspondent.

The chamber of deputies was prorogued until November, when the bill will be again taken up. King Victor Emanuel came to Rome to open the special session. The debate was very animated, the socialists and republican deputies attacking the government proposals with great violence and threatening prolonged obstruction on each clause of the railway bill.

The estimates provide for a payment ment to the railway companies of $56,000,000 to settle differences between the government and the three great companies.

Olive Drab Uniform Discarded.

Benicia, Cal., August 1.—An order has just been received at the Benicia barracks announcing that all olive drab uniforms now in the possession of the enlisted me must be confiscated at once. In the whole United States army there are, it is said, but three hundred of these olive drab unifroms among the men, and of this number about seventy are in the Benicia barracks. The reason for the wholesale confiscation is that the enlisted men, when dressed in these uniforms, can hardly be distinguished from the officers and on several occasions mistakes have been made through their use.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1. Sold by W. M. Johnson.

Rojestvensky Resting Easy.

Tokio, Aug. 1—Admiarl Rojestvensky's condition has made satisfactory progress since the operation was performed on his forehead. He was able to leave his bed and sit in a chair yesterday. Pains in one foot however, prevent his walking freely but no cause for uneasiness exists. The admiral has expressed his sincere satisfaction at the treatment accorded him.

Peculiar Disappearance.

J. D. Runyan of Butlerville, O., laid the peculiar disappearance of his painful symptoms of indigestion and billousness to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at all drug stores; price 25c.
